

# UltraElite SERIES

# the professional's choice

When you want the best the only choice is what the pros choose; the UltraElite Series 2 featuring the perfect marriage of patented technology and the kindest approach to training your pet – GentleSteps™.

GentleSteps is a unique feature of the UltraElite series 2 system that utilizes extremely low levels of correction, that you can adjust, to train your pet faster and without the stress normally associated with other pet fence training systems. In fact, it is so effective that some of the nation's leading dog trainers use the Pet Stop UltraElite series 2 System exclusively for their choice in pet fencing.

## The Ultimate in Customization

Your pet is guaranteed a fencing system that is perfectly customized for their needs with Pet Stop's Digital Technology. With virtually thousands of programming choices and training options, the UltraElite is the most complete and customizable fencing solution on the market. Dare to compare!

## PerfectMatch™

Another Pet Stop exclusive for families with more than one pet. PerfectMatch allows you to match the sensitivity of each collar or vary it if necessary. This is particularly important for pets of different sizes or for those who may need to stay farther behind the boundary than another pet. Only Pet Stop features this type of innovation.

## StabiliTemp™

Pet Stop is truly a fence for all seasons. While the boundary of other systems can vary by as much as 10 feet, depending on the outside temperature, Pet Stop systems with StabiliTemp will remain stable regardless of the outside temperature.

## Designed & Manufactured in the USA

by people who love their pets, just like you!

# PET STOP

*Safer by design. Greater peace of mind.™*

**GentleSteps™**  
EASIER TRAINING FOR HAPPIER PETS

## 4 Frequency Reliability

You never know when your neighbor might install a pet fence and all of a sudden your pet gets a correction in areas they shouldn't. With the security of 4 different frequencies you'll be assured your Pet Stop system will be unique to your property. Having different frequencies also offers greater protection from signal interference issues typically associated with CATV and satellite TV lines.

## Worry-Free Lifetime Warranty Plus AccidentCare

Not all Lifetime warranties are created equal. With Pet Stop, not only are you covered for manufacturing defects, but with AccidentCare you're even covered for unexpected or accidental damage for the life of the system.
